MEMORANDUM FOR: HQ, USAF
AFCIG-5

SUBJECT : Loan of Two FR-114 Recorders and A, B-1,
and B-2 Racks to USAF for Use of USAFE

REFERENCE : Memorandum from James Q. Heber, Chief,
Special Requirements Staff, to Colonel
L.E. May, HQ, USAF, dated 13 July 1959;
Subject as above

1. By virtue of the memorandum cited above, we agreed to leave two FR-114 recorders on loan with HQ, USAFE at the time of the withdrawal of one of our projects from that headquarters. In addition, three readout racks—an A, B-1 and B-2—were shipped to HQ, USAFE on 30 July 1959 and placed on loan with the FR-114 recorder. The terms of the loan agreement stipulated that adequate notice would be given—at least thirty days in the case of the FR-114's and nine months in the case of the A, B-1 and B-2 racks—in event they should have to be returned.

2. We now desire to determine the status of this equipment and if any or all of it can be returned to us with thirty days notice. If such short notice cannot be met, we would like to know the maximum notice required. This is not a request for return of the equipment—merely a planning action to support a possible requirement which may or may not develop.

3. A complete breakdown of the components associated with each rack is attached to assist in determining condition and completeness of each.
